

## HEADER FITMENT with A/C COMPRESSORS

### Will Fit

Header no's 61HC, 61WPA, 61WPBE, 6417825, 64L-R1 will fit using the following A/C compressors...

- Chrysler/Mopar part no's: 68202994AA (superseded no's 68028917AB, 68028917AC, 68028917AD, 68028917AE, RL028917AB, RL028917AC) and 68158259AE (superseded no's 68158259AC, 68158259AD)
- Bouchillon Performance Engineering part no: 64F917

Compressor 68202994AA shown

Compressor 68158259AE shown

### Will Not Fit

Header no. 61HC will not clear the factory low-mount A/C compressor part no. 4596492AC in A,B&E-body applications. However, clearance can be achieved in B & E-body applications by making a small indentation in the #1 header tube to clear this factory low-mount compressor.

Drivers-side #1 header tube interference.

DIY (Do-it-yourself) modification  
#1 header tube dimpled for compressor clearance.
